CADETS TO LEARN ART OF JIU-JITSU

Japanese System of Training Will be Introduced at West Point and Annapolis.

PRESIDENT APPROVES PLAN

Report of Board Recommends That Boxing and Wrestling be Included in Course.

(By Associated Press.)

WASHINGTON, March 31.—The War Department has made public the report of the joint board of army and navy officers, convened by special orders of February 28, to take into consideration the physical training of cadets at the Military Academy and of midshipmen at the Naval Academy.

The report is endorsed by President Roosevelt, who directs that the plans be carried out, and also that a further report on progress be submitted to him by June 15.

Secretary Taft approves the recommendations, and Acting Secretary Darling also, except as to the suggestion that the sword of the army be made a part of the equipment of every ship in the navy for use of officers and landing parties.

The report is very long. Its most important feature is the recommendation that the Japanese art of jiu-jitsu be included in the course, with boxing and wrestling.

The board reports that it is not of great value as a means of physical development, but the knowledge of the system would inspire the individual with a degree of self-confidence.

The board recommends that the physical training be extended over the four years' course at each academy, instead of one year, as at present.

Other points of interest contained in the report are these: "The training of the students as future instructors in physical training." The board believes that the best physical development can be obtained only by a study of the physical condition of each cadet or midshipman and the use of him of exercises such as will tend to remedy his physical defects.

This involves the careful and medical examination and measurement of each individual and the prescription for him of suitable exercise.

"The board is thoroughly convinced that in order to secure the proper physical development of the average student the minimum of time to be devoted to compulsory physical exercise is two hours each week throughout the entire course."

"The regular practice of judicious and healthful exercises by cadets and midshipmen throughout their four years' course will develop habits and exercise in youth which will tend to be prolonged into later life, and thus have a marked effect in raising the standard of physical condition and physical fitness of the officers of the United States service."

The board finds that the present force of instructors in physical training at each academy is inadequate to its needs, even with the limited amount of time now devoted to this work. With the extension of the course recommended above, at least three additional instructors will be required at each academy.

GIVE AN AUTOMOBILE OUTING TO ORPHANS

Every Owner in New York to be Asked to Lend Car to Little Ones on June 7th.

(Special to The Times-Dispatch.) NEW YORK, March 31.—It is proposed to set aside June 7th each year as an outing day for orphan children of this city and to take them for an automobile ride. This plan was suggested by W. J. Hyde, one of the members of the New York Motor Club, at a meeting of the club held yesterday. It is Mr. Hyde's idea to arrange a mammoth outing and ask every owner of an automobile to lend aside that day for orphan children as far as the use of his automobile is concerned.

The club unanimously adopted the suggestion. Mr. Hyde, vice-president, said: "If possible, we will have more than a thousand automobiles in line, and will give the children the time of their lives. Central Park will be visited and a run to the seashore included in the day's outing. The children will have all they can eat and drink."

C. H. Hyde, president of the club, is enthusiastic about orphan's day.

CHEYENNE CANON SOLD TO SYNDICATE

(Special to The Times-Dispatch.) COLORADO SPRINGS, Colo., March 31.—Cheyenne Canon, Colo., the very tourist who has visited Colorado within the last twenty years as one of the beauty spots of the State, has been sold to a syndicate of Colorado Springs and eastern capitalists for \$250,000. A new company with \$400,000 capital has been organized and will spend \$50,000 in improvements.

The Canon, world famous as the location of the Seven Falls and of Helen Hunt Jackson's grave, was homesteaded in 1875 by Nathaniel Colby, a prospector. A few years later he sold it for \$100,000. James and Harold Hull, whose toll gate at the entrance to the Canon has cleared them \$40,000 a year for two decades, paid \$3,500 for the property in 1882.
